

## LED PL-L 2G11 Retrofit

### 360° beam

Keeps the lighting effect of the original lights

Replaces fluorescent lamps

Separate driver/transformer:  
**Cooler LEDs = long LED-life**

420mm 15Watts (1200lm)

490mm 19Watts (1520lm)

Clear version available  
(for lights with frosted diffusers)

Aluminum body for good cooling

Dimmable/controls versions available

**In most LED lights the DRIVER,  
not the LEDs, fails first**

240V

Driver

**The EFICA driver is outside the lamp.**

This allows replacement. Driver fits inside body of light-fitting

Beam Colour:  
(not correct beam angle)

**Warm-White**  
(special order)  
2800-3000k

**Cool-White**  
(standard, recommended)  
4000k

**Daylight**  
(special order)  
Very blue light is not kind to eyes
